# Meeting of Permanent Commission of IPC for the 13th WFYS Held

The first meeting of the Permanent Commission of the IPC for the 13th WFYS was held in Pyongyang over February 21-28.

The meeting discussed agenda items on the invitation to the 4th Meeting of the IPC for the Festival, adoption of the main composition of the Permanent Commission, its assignment of responsibility and election of Coordinator, working program of the Commission till the 4th Meeting of the IPC for the Festival and other matters.

It decided to set up at the Permanent Commission Bureaus for Program, Liaison, Press and Information, Material Support and Finance and elected their chiefs and deputy chiefs.

French delegate Angles Thierry was elected Coordinator of the Permanent Commission of the IPC for the Festival.

The proposed agenda items were successfully discussed at the meeting.

## *Full Support to Participation in Pyongyang Festival*

Li Jae O, Chairman of the National Reunification Committee of the National Alliance of Movement for Nation and Democracy involving broad dissident forces in south Korea, expressed full support to the participation of south Korean youth and students in the Pyongyang Festival, paying deep concern to the letter sent by the Korean Preparatory Committee for the 13th WFYS and the Korean Students Committee to the National Council of Student Representatives.

On February 5, in an article of the south Korean magazine "Chugan Hanguk", he said:

Students and the people are showing a great interest in the 13th WFYS.

The slogan for the Pyongyang Festival is, as is well known, "For Anti-Imperialist Solidarity, Peace and Friendship".

As the Pyongyang Festival is one to be held in Asia for the first time, the north side is making every effort to successfully hold the Festival and also is taking a great pride in hosting the Festival.

The contents of the festival functions include such political items as opposition to imperialism and colonialism, the building of the world free from nuclear weapons, anti-imperialist solidarity, national liberation and independence, social progress, democracy and non-alignment as well as new international economy order and other economic items, human rights, the right of women, education, science, new technology and other various items; these problems will be dealt with in the forms of debates and meetings.

It is said that cultural, art and sports functions will be held to

strengthen friendship and unity of the youth and students.

Introducing in detail preparation for the Festival being made in the northern half of the Republic, he noted that the north side was not oblivious of inviting the youth and students in the south while making propaganda for the Festival at home and abroad.

He pointed out:

In the letter sent to the NCSR, the north side showed a desire, saying "on the days of historic June 10 and August 15 when we were running to the talks place at Panmunjom, calling and responding to each other, we clearly confirmed that we have one mind, though divided in the north and south, on the road of patriotism for peace and peaceful reunification of the country and that we have the same fighting spirit to devote

our youth on this road. Inviting the youth and students in the south to the Pyongyang Festival will open a road of an epochal turn in creating an atmosphere of national reconciliation and unity between the north and the south."

To this, the Seoul Student Council Federation expressed its support to the idea of Festival on December 30 last year, and on January 20 the NCSR expressed its intention to parti-

cipate in the Festival and proposed to exchange letters, suggesting preparation for holding of a business talks.

In its reply letter, the NCSR said: "in this situation where the country is groaning today with pain from the cut of waist caused by domination and interference of imperialism and is unable to get rid of antagonism and war, 'anti-imperialism and peace' is just and correct banner which is enabling our

nation to pave the way of living." "It is a demand of the national history that the youth and students in the north and the south who will become the masters of the reunified fatherland should stand in the van of overcoming the grave situation where the danger of nuclear disaster are daily aggravated and is opening the way of peaceful reunification.

Participation in the oncoming Pyongyang Festival will be a good opportunity."

He went on to say:

If the present "regime" has a will for national reunification even a little, it must not drive out students to tear gas ridden street with suppression and deception but express full support and encouragement to participation in the Festival and to the exchange between the north and the south.

Anti-imperialism, anti-war, anti-nuke and peace are a cherished desire of the whole mankind for national independence and a new requirement of the times.

The present military tension on this land constitutes a factor threatening peace in Northeast Asia and the rest of the world.

If nuclear weapons and foreign forces are forced out of this land to open a new page of peace and reunification, it will help toward peace in Northeast Asia and the rest of the world. So will the participation of young people in the Festival.

In view of 40-year-long division fraught with antagonism, feud and confrontation, let alone the aforementioned aspects, if only youth and students in the north and the south sit together at one place and embrace each other with compatriotic feelings, an epoch-making occasion for the reunification of the country shall be provided.

So all the people who eagerly desire independent reunification should not spare their firm support and help to the participation of the NCSR in the Pyongyang Festival.

On the other hand, the IUS Secretariat calls upon the students organizations and friendship organizations all over the world and all the non-governmental international organizations to carry on brisk activities to express solidarity with the Korean students and people in their struggle for the peace and reunification of Korea.

## **Statement of Mauritian National Preparatory Committee for Festival**

The Mauritian National Preparatory Committee for the 13th WFYS issued a statement on February 3 in support of our new proposal for the country's reunification.

The statement pointed out:

We support fully all proposals advanced by the great leader President Kim Il Sung for the reunification of Korea and in particular, express full support to the proposal to hold a north-south political consultative meeting which was put forth in his New Year Address for this year.

We think this proposal reflects the will and desire of the Korean people and believe it will greatly contribute to easing tension and to achieving the peace of Korean peninsula and her peaceful reunification.

We are convinced that the 13th WFYS will attain a great success in the struggle for anti-imperialist solidarity, peace and friendship.

We will make an active effort for the success of the Pyongyang Festival.

Comrade Kim Jong Il the dear leader of the Korean people, Member of the Presidium of the Political Bureau and Secretary of the Central Committee of the Workers' Party of Korea, pays a deep attention to the Festival. He not only planned the general preparation for the Festival by himself but also has personally organized and led construction of every structures for the Festival, giving on-the-spot guidance to their sites.

Saying that the guidance of Comrade Kim Jong Il to preparation for the Festival is "really unusual and prudent", the Korean comrades informed us that he acquainted himself in detail with the designs of the opening and closing ceremonies of the Festival, festival souvenir goods and other problems one by one.

Former president of Portugal Francisco Da Costa Gomes answered the questions raised by a reporter of our country in connection with the 13th World Festival of Youth and Students.

At the question of the reporter about his impression of the 13th WFYS to be held in Pyongyang, the capital of the Democratic People's Republic of Korea, for the first time in Asia, he answered:

The 13th WFYS to be held in Pyongyang will bring a world-wide

fame to the Korean people.

The Democratic People's Republic of Korea was founded on September 9, 1948 and the Korean people have established the socialist system and dynamically pushed ahead with the three revolutions of ideology, technology and culture.

What I would like to put emphasis this time, is the fact that Pyongyang, the venue of the Festival, is a very beautiful and modern city.

The working people, youth and

## *“The Way to Pyongyang”*

A recent issue of a Tanzanian magazine carried an article titled “The Way to Pyongyang” with the emblem of the 13th WFYS.

The article said:

In Pyongyang, capital of the DPRK, the 13th WFYS is to be held under the slogan “For Anti-Imperialist Solidarity, Peace and Friendship” this year.

Now in Pyongyang its preparatory work is being vigorously conducted at the final stage to successfully ensure the Festival in accordance with the desire of the world youth and students.

The KPC for the Festival is actively mobilizing the youth and students in various works to make successful arrangements for the Festival.

Structures for the Festival are rapidly constructed and many of them are near completion.

The Rungnado Stadium being built in specific style is near completion and the Rungna Bridge is already completed to link both banks of the Taedong River and beautiful islet.

The 13th WFYS will, no doubt, be held as the most wonderful one.

The article also touched upon preparations for participation in the Festival being made in Tanzania.

# Pyongyang Festival Is of Weighty Significance

students and children in Pyongyang are greeting the foreign guests warmly, friendly and ardently.

In a word, Pyongyang today has ample material and technical conditions to hold the World Festival of Youth and Students on a grand scale as demanded and desired by all strata of youth and students of the five continents.

Being asked what a positive significance the Pyongyang Festival which will be held under the slogan "For Anti-Imperialist Solidarity, Peace and Friendship!" has in the development of the situation of Asia and the world, he answered:

The World Festival of Youth and Students is a movement reflecting a strong will and desire of the youth and students to save mankind from

the danger of war.

Most significant is the World Festival of Youth and Students which will write the 13th chapter in Pyongyang, capital of the DPRK. For it will be an important occasion in giving encouragement to the progressive people of the world who are fighting for the world peace and the building of society where all people are equal and to the youth of the countries fighting for freedom and independence, and in firmly uniting all youth and students who are advancing towards future in Asia, Africa and Latin America.

Through the 13th WFYS, the idea to strengthen the potentials of the youth, their thinking capacity and unity and solidarity among all

people and political organizations and carve out a future of mankind where everybody enjoys equality will flower more brilliantly. Francisco Da Costa Gomes answered the question put by the reporter as to what he was going to do for the Pyongyang Festival and what he would say to the young generations of the world, as follows:

I put a firm faith in the youth who are steadily striving to defend the idea of solidarity, peace and friendship and build a world of peaceful and fair socialist system.

But this is never an easy work: I would like to tell the young people about this. I must say that peace is a most valuable wealth and supreme ideal for mankind.

## Our Delegation Was Deeply Impressed

Tor-Hugne Olsen, Vice-President of the International Federation of Liberal and Radical Youth, who was heading a delegation of the federation on a visit to Korea, was interviewed by a reporter on January 30 before leaving Pyongyang.

Saying that he visited Korea with a great concern about the 13th WFYS, he said:

During our stay in Korea, our delegation was deeply impressed while going round the sports, cultural and public service facilities which are under construction in Pyongyang for the 13th World Festival of Youth and Students.

Sports facilities built in Chongchun Street are very nice. In particular, the Rungnado Stadium where the opening and closing ceremonies of the Festival will be held is eye-catching.

Your country has several fine stadiums available for the festival functions, but is constructing magnificent stadiums in a modern style to ensure festival

functions successfully.

All the buildings and facilities which are rising magnificently in Kwangbok Street will, no doubt, please the festival participants and ensure them all conveniences and conditions in their daily activities, we believe.

Noting that the Korean people and youth are now preparing the Pyongyang Festival, on a high standard, he said that the Festival will become an international gathering of the world people and youth and students for peace, friendship and solidarity.

He briefed the reporter on the work undertaken by the International Federation of Liberal and Radical Youth for the preparation of the 13th WFYS and sincerely wished the Korean people and youth and students greater achievements in their work to prepare the Festival.

# *It Is Happy to Become Guest of Pyongyang*

I am very happy to visit Pyongyang which will attract many young guests from various places of the world during the 13th WFYS amid the resounding echoes of slogan "For Anti-Imperialist Solidarity, Peace and Friendship!".

How happy it will be to become a guest of Pyongyang, a focus of the attention of the world, with the Festival at hand!

The feature of Pyongyang really stirs up admiration.

I had appreciated the looks of Pyongyang busy with festival preparation on the television in our country, but I was really amazed to see the scenes spreading before my eyes.

Seeing the construction of structures for the Festival, I keenly felt the warm hearts and firm will of the Korean people and youth and students to ensure the 13th WFYS wonderfully at the highest level in conformity with the expectation and desire of the world's youth and students.

The dear leader Comrade Kim Jong Il is a great leader who is making a great contribution to the development of the world youth and students' movement.

Successful progress of preparation for the Pyongyang Festival owes to the wise guidance of the dear leader Comrade Kim Jong Il.

Our Algerian youth all think so.

We, the Algerian youth and students, have deep respect for the dear leader Comrade Kim Jong Il.

The Korean people and youth and students are advancing in the van of the struggle for the cause of anti-imperialist independence, peace and friendship. So Pyongyang is regarded as a symbol of hope of the world's progressive youth and students and Korea focussed the world attention

with the oncoming 13th WFYS.

At the Second Session of the Provisional Working Group of the IPC for the Festival held in El Djazair, the capital of our country, last year, too, I felt the world youth and students' great expectation of and concern for the Pyongyang Festival and their firm conviction of its success.

The African youth and students are looking forward to the day of Pyongyang Festival with such warm hearts.

During my stay in Pyongyang, I felt confident that such aspiration and desire of ours will be realized beautifully during the Pyongyang Festival.

Preparation for the Festival in Korea gives an encouragement to the youth and students of the five continents and the national preparatory committees of the different countries engaged in the international preparation.

I would like to lay emphasis on devoted efforts made by the Korean youth for preparation for the Festival under the wise leadership of the dear leader Comrade Kim Jong Il.

Our Algerian youth and students are also firmly determined to contribute to the successful holding of the 13th WFYS by doing their all for the preparation for the Festival.

I believe that the 13th WFYS, the first of its kinds in Asia, will be a powerful stage of the international support for and solidarity with the cause of struggle of the Korean people and youth and students for the country's independent reunification and the complete victory of socialism.

The Pyongyang Festival will surely record the most significant and beautiful page in the history of the festival movement.

## Art Performance of School Children

During the days of the 13th WFYS, the art performances of school children prepared distinguishingly in conformity with the desire of the Festival will be given on the stage of the students and children's palace built newly in Kwangbok Street and the stage of a float set on the Taedong River.

# Pyongyang, Venue of Festival

Pyongyang is the capital of the Democratic People's Republic of Korea.

Situated northwestern in the peneplain of the Korean penin-

**Chollima Statue symbolizing the mettle of Korea**

sula, Pyongyang has a long history of over 2,000 years.

Koguryo which had been the strongest among the Eastern countries in early time built Pyongyang for tens of years and fixed it as its capital in 427.

The beauty and eternity of Pyongyang are well shown by the Taedong and Potong Rivers flowing like mother's milk through Pyongyang, Moran Hill which is queer-looking like a peony bosom, Mt. Taesong and Mt. Ryongak forming the background of the city, and the historical relics like Taedong Gate, Potong Gate, Ulmil Pavilion set up in the places having fine views.

Looks of Pyongyang have changed according to the different historic times.

During the Japanese colonial rule (before 1945) it remained a typical colonial town formed with narrow dirty streets.

During the days of the

Fatherland Liberation War (1950-1953) the US imperialists showered the city with 428,748 bombs, reducing it to ashes. And they prattled that people would be unable to find Pyongyang on the map and it would never regain its feet even after 100 years.

But Pyongyang was reconstructed more beautifully, gigantically and on a modern line as a prosperous youthful city in a short span of 10 years, not 100 years.

Pyongyang is conspicuous for its unique and special way of municipal construction.

Bronze statue of the great leader President Kim Il Sung is soaring imposingly on Mansu Hill and a number of streets and monumental structures are seen as if giving cheers to the great leader's bronze statue.

Really Pyongyang has its own look, as it should be, as the capital city of the people who have the great leader in high esteem.

**A view of the central part of Pyongyang seen from east Pyongyang**

Kim Il Sung Square stands near the Taedong River. The Grand People's Study House is priding itself on its own Korean-style grandiose architecture. With these two as an axis, avenues stretch out in all directions.

There in the central part are well laid out streets called, Changgwang, Chollima, and a number of modern buildings such as the Mansudae Art Theatre, the Pyongyang Department Store No.1 and the Pyongyang Students and Children's Palace, which are all in the service of people's welfare.

Streets named Ragwon, Munsu, Youth, Pipa and An Sang Taek have also characteristic feature each.

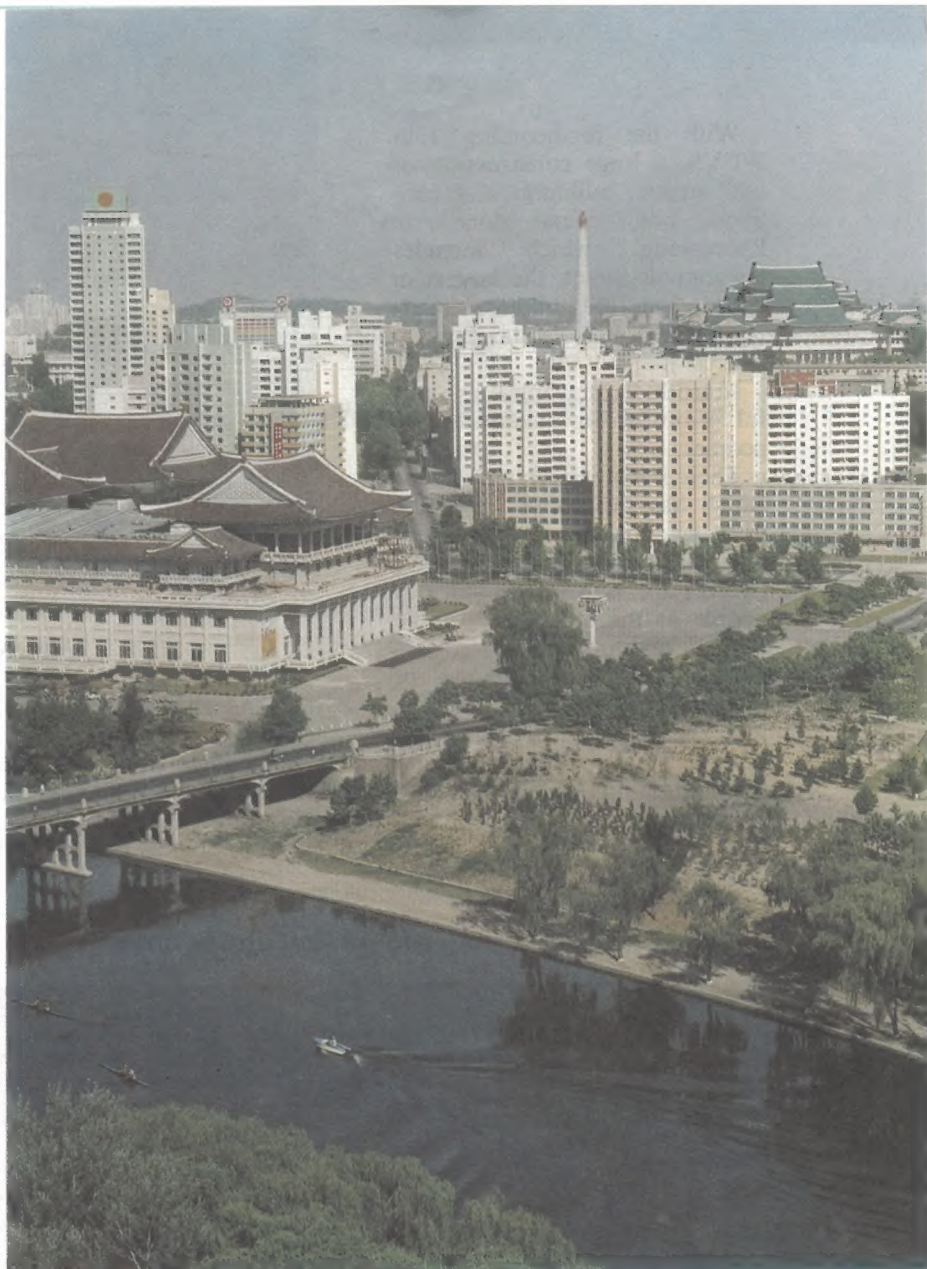

Changgwang Street has been built on the most modern line. There, buildings high, low, thick and slim, in spring, summer, autumn and winter tints, make a beautiful screen-like scenery, refreshing, elegant and grand, as seen in Mt. Kumgang.

Situated in this street is Pyongyang Koryo Hotel, a two-body building, 45 storied, 140 metres high, with a floor space of 84,000 square metres.

In the central part of Pyongyang, on the bank of the Taedong River stands the sky-high Tower of the Juche Idea with flaring torch of Juche on its top and in front of the tower and in the middle of the Taedong River the big fountains are seen shooting up water to 150 metres height. You will find many other monumental edifices, among them Kim Il Sung University, the Pyongyang Maternity Hospital, the Arch of Triumph, Kim Il Sung Stadium, the Changgwang Health Complex, Chongryu Restaurant and Grand Theatre.

Pyongyang Metro built in a unique way and decorated with splendid and marvelous mozaic and shining chandeliers, eases the congestion of traffic.

Large fun fairs, Korean-style parks and rest places are properly

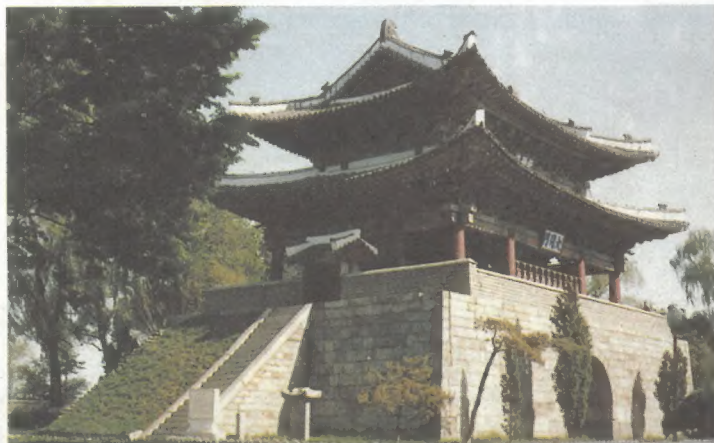

**The Potong River and a street in Pyongyang**

laid out in such scenic spots as Mangyongdae, Moran Hill and Mt. Taesong from which people's

happy laughters are heard.

Today the beautiful city of Pyongyang is getting younger.

**Taedong Gate,  
a historic relic  
in Pyongyang**

With the forthcoming 13th WFYS, a huge construction of new streets, buildings and facilities has been done in Pyongyang, which includes Kwangbok Street, the largest in Pyongyang, 260 buildings covering an area of 5.5 million square metres.

In truth, Pyongyang is a youthful beautiful capital city of the people.

There is historic Mangyongdae which has the house where the great leader was born and spent his childhood, and for this, Pyongyang is valuable to our people as the cradleland of the Korean revolution.

This marvelous change of looks of Pyongyang owes to the wise leadership of President Kim Il Sung and the dear leader Comrade Kim Jong Il.

Foreign visitors ask with admiration "is this really

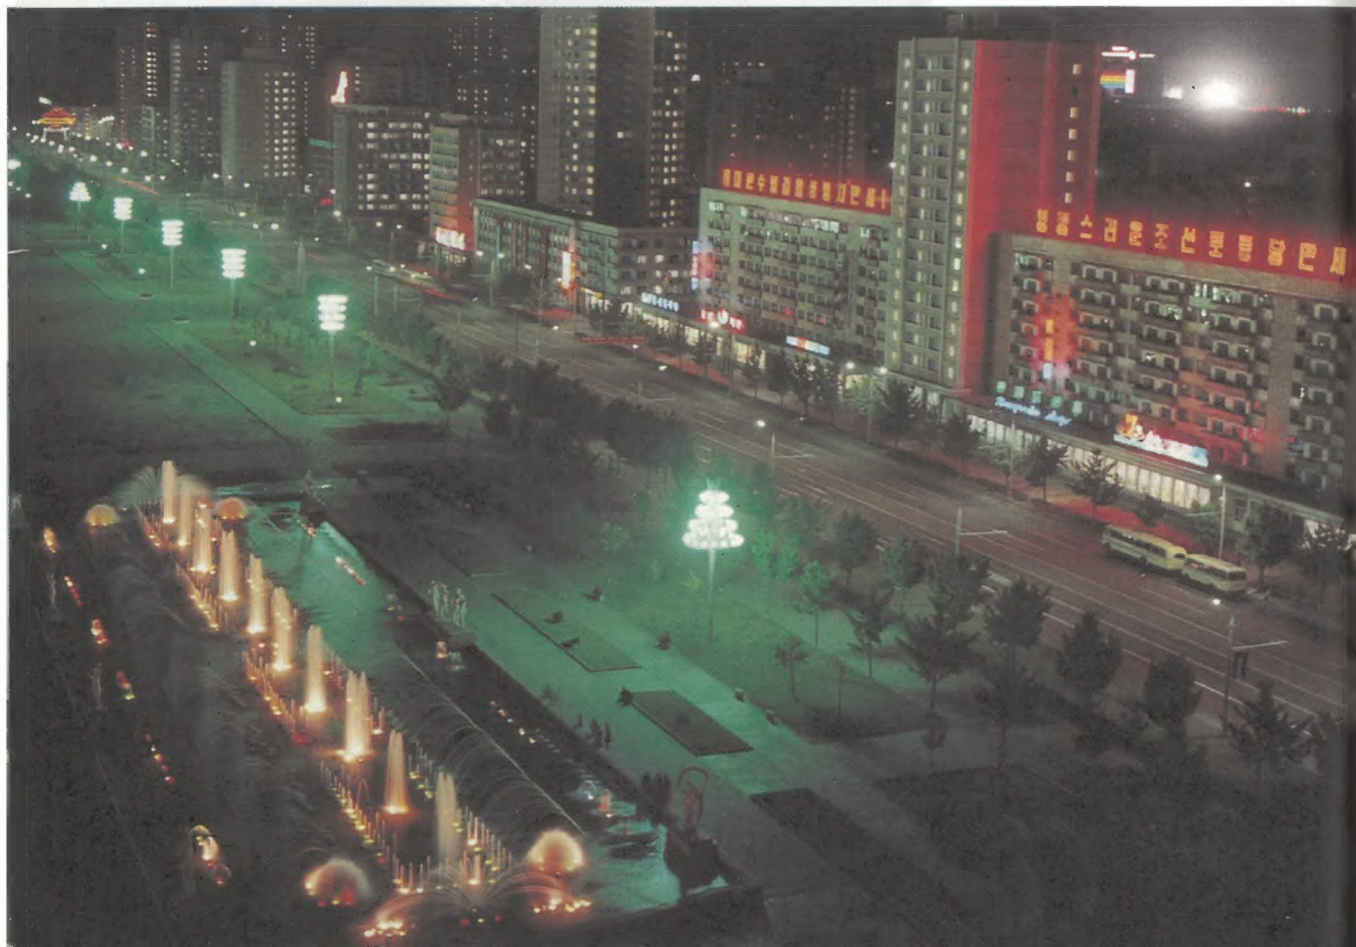

**Mangyongdae Fun Fair**

Pyongyang which was reduced to ashes 30 years ago owing to 428,748 bombs dropped by the US imperialists?" adding that "Pyongyang is a youthful city and a city of happiness giving people

joy and hope" and "Pyongyang is a city in a park".

Pyongyang will give pleasure to the participants in the 13th World Festival of Youth and Students with splendour.
